Subject: Re: Fw: Dimock - Sampling Plans (Round 1 and Round 2)

Quickly reviewed Round 1 and Round 2 SAPs

Round 1: No major comments. However - I would recommend confirming the holding times for the various glycols. I thought all labs were now using 14 days? Not sure if R3 lab reviewed the plan - if not they should.

Round 2: Should not include a reference to collection of tap sample - since the four homes being sampled are all receiving water via water buffalos. Only collect a wellhead sample.

- Kelley

Rich,
I have attached 2 sampling plans for your review and approval. One is the SAP for the 3 homes for the 1st round suite of analysis (Dimock_SAP_Round1_Supplemental.pdf), and the other is for the 4 homes for the Round 2 sampling (Dimock_SAP_Round2.pdf).

Please let me know if any changes are required and if you approve these sampling plans.

Thanks,

Suddha Graves
